# Flush Pointed Endcaps For PVC Screen

**Fits flush inside  
screen, no need  
to cut off the  
male thread!**

**FlexiPoint 50** A new concept in screen bottom points.

The Flexipoint is an end cap designed to be installed in the screen with no need to cut off the female thread. It is made long to reach up inside the pipe ID.

- Flush with pipe OD, no edges to get caught
- Pointed tip to push into bottom of hole if needed
- Made from recycled plastic, giving you more sustainability
- Fits class 18 pipe as standard
- Also fits Class 12 or USA Sch 40 pipe
- Made in Australia
- For 50 mm, pipe

**Made from  
Recycled Plastic**

**Low \$**
